

Hello. I believe it would be a great loss if KLOVE was to go off the air. KLOVE is a great encouragement to me and my community by airing a family friendly message of faith, hope, and comfort through music. There is also a community calendar that is helpful. I believe that the community in the KKMC listening area would be harmed by not having an alternative to the soul diminishing broadcasting offered by the majority of broadcasters. KLOVE serves the public interest by lifting up the Lord Jesus Christ and drawing people to Him through the medium of music.
